MEDIA SERVICES

THANKS TO OUR INNOVATIVE SOLUTIONS, EXCEPTIONAL SERVICE QUALITY AND AN ARRAY OF TECHNICAL SKILLS, WE OFFER SERVICES FROM MAINTENANCE AND MODIFICATION TO PRODUCT AND MEDIA SOLUTIONS.

OUR SPECIALTY IN PROVIDING IFE & CONNECTIVITY SERVICES AND SOLUTIONS, LEAD OUR LOCAL AND INTERNATIONAL CUSTOMERS TO ENTRUST THEIR IN-FLIGHT ENTERTAINMENT OPERATIONS TO THE COMPETENT HANDS OF TURKISH TECHNIC.

WHETHER IT IS ONE AIRCRAFT OR A WHOLE FLEET, WE ARE HERE TO PROVIDE IFE & CONNECTIVITY SERVICES TAILORED TO OUR CUSTOMERS' NEEDS.

Using the latest technological equipment and having the necessary know-how, we offer excellent media services for a broad range of aircraft types. Fully equipped with media loading stations, xcopy tracks, SSD/HHD/SD card duplicators at our workshops and secure high-speed network areas, we provide customer-enhanced monthly media preparation, testing, and loading services.

04

CONNECTIVITY SERVICES

Bearing in mind connectivity performance is the cornerstone of in-flight entertainment systems, our IFE Mission Control Center (MCC) provides 24/7 support by tracking fleet connectivity status and troubleshooting the system defects from the Internet Service Provider (ISP) of the aircraft.

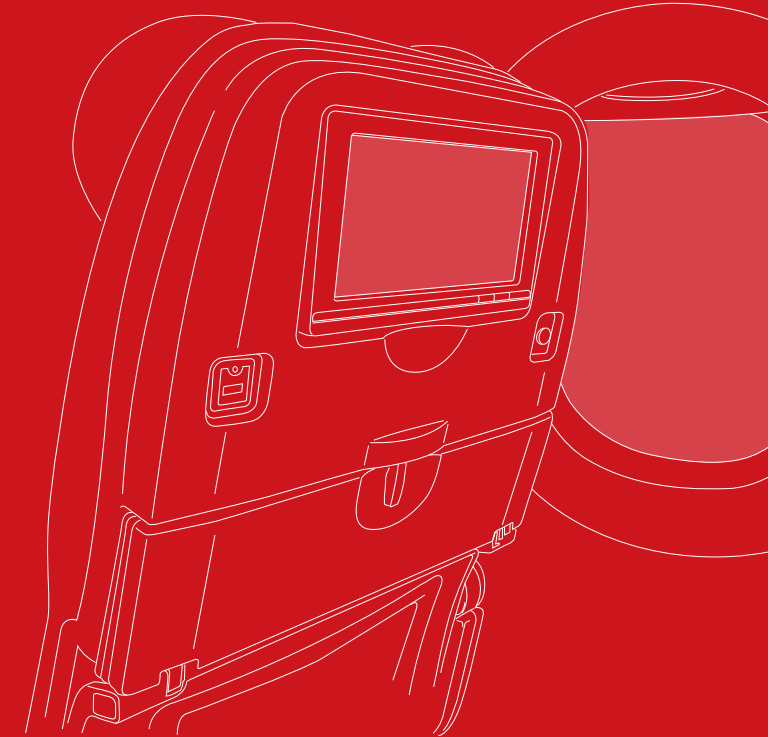

05

CONSULTANCY SERVICES

With more than 24 different types of IFE configuration experience, our extensive in-house capabilities and team of experts available around the clock, we have a proven track record servicing IFE & Connectivity systems.

Bringing the knowledge and skill sets required, we implement strategies for selecting IFE & Connectivity systems, minimize inventory and repair costs, improve on current operational system performance, provide repair management and financial forecasting.
